Career Objective

Motivated Computer Science and Engineering (Data Science) student seeking an opportunity to apply my skills in Java, Python, data structures, and problem-solving. Eager to contribute to real-world projects, learn from experienced professionals, and grow as a software developer.

Education

Mohan Babu University **Aug 2024 – Present**
B.Tech, Computer Science and Engineering (Data Science)
CGPA: 9.43/10

SR Junior College **2024**
Class XII, Board of Intermediate Education, Andhra Pradesh
Percentage: 96.4%

Keshava Reddy School **2022**
Class X, Board of Secondary Education, Andhra Pradesh
Percentage: 95.33%

Technical Skills

Programming Languages: Java, Python, C, C++

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Problem Solving

Databases: MySQL

Tools: Git, GitHub, VS Code, Eclipse

Projects

Agni Drishti – Industrial Fire Intelligence Hackathon Project

- Proposed a geospatial surveillance system to identify and classify potential industrial fires and persistent thermal sources using NASA FIRMS hotspot data and OpenStreetMap context.
- Designed a workflow for hotspot preprocessing, geographic enrichment, spatial and temporal feature extraction, and source classification into industrial, forest, agricultural, or unknown categories.
- Planned a GIS dashboard to display hotspot locations, classifications, and historical patterns for situational awareness.
- *Planned stack:* Python, NASA FIRMS, OpenStreetMap, machine learning, geospatial visualization.

Telegram Automation Bot using n8n Automation Project

- Built an automated Telegram bot using n8n to create event-driven workflows.
- Implemented conditional logic to process and respond to user messages.

Achievements & Activities

- Qualified for the zonal round of the **Aspire For Her × Logitech Women Who Master Hackathon 2026**.
- Create programming-education content for **TechEd Telugu**, including Java concepts, coding questions, and DSA explanations.
- Completed hands-on coursework and projects through IBM/Coursera learning tracks in React, Node.js/Express, and Python/Flask.

Certifications

- Microsoft Python Development Specialization – Microsoft
- Google Data Analytics Specialization – Google

Strengths & Interests

Strengths: Problem-solving, quick learning, teamwork, adaptability, and self-motivation.
Interests: Java and DSA practice, automation, AI/ML applications, and creating programming content.
